9 March 1959

MEMORANDUM FOR: Special Assistant, CR

SUBJECT : Comparison of Air Force and CIA Coding of Air Information Reports - Status Report as of 6 March.

1. Summary for the Period 2 - 6 March:

a. Documents Reviewed 78

Documents With Coding Errors By AFCIN 7 (9%) By CIA 0

b. Number of Codes Assigned to 78 docs. 234

Coding Errors By AFCIN 7 (3%) By CIA 0

2. Analysis of AF errors:

a. Incorrect subject code 2

b. Significant information not coded 5

Incorrect codes were applied to political information. Errors in omission were related to industrial information.

3. CIA's perfect record this week can be attributed to the 6 weeks' period of review; common errors made by our coders have been eliminated by this intensive revision of coding.

4. There is notable improvement in AF coding. Mr. Stein is conducting on-the-job training of AFCIN document analysts and is reviewing some portion but not all AF reports sent to us.

25X1A9a

5. [redacted] feels that the few errors in omission of codes covering economic and political information will be eliminated automatically with the reduction in AF collection of economic and political information.
